

## SCAF Future Workshops, Events & Conference for 2011

---

We would like to take this opportunity to wish all our members and their families the very best for Christmas and the New Year. We thank everyone for supporting the Society during 2010 and look forward to welcoming both existing and new attendees at our events next year. Our programme for 2011 is shown below and for more detail please contact our Secretary, Neil Morrill at [ndmorrill@dstl.gov.uk](mailto:ndmorrill@dstl.gov.uk) or visit our website [www.scaf.org.uk](http://www.scaf.org.uk)

---

- 08 Feb** “The use of Parametrics for Cost and Schedule Estimates—are we making best use of it?”, BAWA Centre, Filton, Bristol. Our speakers will discuss: current policy, applicability, data normalization, model building, historical trends and direction analysis, parametric techniques and “**should cost**” strategies. A plenary session will also be included with sufficient time for questions and answers.
- 12 Apr** “Estimating the Cost of Operating and Support in a Changing Commercial World”, BAWA Centre, Filton, Bristol. There are now many ways to contract for support and, not all of them are well understood. The workshop will address how cost estimating and modeling can support alternative support contracting mechanisms.
- 07 Jun** “International Perspectives of Estimating”, Ashton & Lea Golf Club, Preston, Lancashire. The workshop will compare and discuss the various international estimating requirements to support the bidding and negotiation processes.
- 28 Jun** “SCAF Summer Reception”, The Steam Railway Museum, Swindon, Wiltshire. This event will provide an opportunity for friend and colleagues to get together in an informal environment. Buffet Lunch and Refreshments will be provided.
- 20 Sep** “Annual Conference”, Royal Institution of Naval Architects, Victoria, London. Our annual conference offers a wide range of topics and, over the years, has provided a platform for innovative speaking and thought gathering.
- Nov** “Joint Conference” (Venue to be agreed). The UK Association of Cost Engineers (ACostE), the Society for Cost Analysis and Forecasting (SCAF) and the European Aerospace Cost Engineering Group (EACE) are delighted to announce this joint conference to support the ACostE’s 50th Anniversary.
-
